

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION IX

75 Hawthorne Street  
San Francisco, CA 94105-3901

AUG 23 2018

Mr. Richard Corey  
Executive Officer  
1001 I Street, P.O. Box 2815  
Sacramento, California 95812

Dear Mr. Corey:

The California Air Resources Board has submitted the revisions in Table 1 to the California State Implementation Plan. We have reviewed the materials submitted with the following documents and found that they fulfill the completeness criteria in 40 CFR Part 51, Appendix V.

Table 1

| AQMD                             | Rule # | Title   | Date of Submission |
|----------------------------------|--------|---|--------------------|
| Sacramento Metropolitan (SMAQMD) | N/A    | “Demonstration of Reasonably Available Control Technology for the 2008 Ozone NAAQS (RACT SIP) January 23, 2017”<br>Deemed Complete on October 31, 2017. Please refer to the Environmental Protection Agency letter Matthew J. Lakin to Richard Corey. | May 5, 2017        |
| SMAQMD                           | N/A    | Negative Declaration for Control Techniques Guidelines for Miscellaneous Metal and Plastic Parts Coatings, EPA-453/R-08-003 (Pleasure Craft Coating Portion Only)   | June 11, 2018      |
| SMAQMD                           | 468    | Surface Coating of Plastic Parts and Products   | May 23, 2018       |
| SMAQMD                           | 419    | Nitrogen Oxides (NO <sub>x</sub> ) From Miscellaneous Combustion Units  | August 20, 2018    |

These submittals address the finding of failure to submit made by the U.S. Environmental Protection Agency (EPA) on February 3, 2017 (82 FR 9158) for the 2008 Ozone National Ambient Air Quality Standard regarding Reasonably Available Control Technology (RACT) requirements for the SMAQMD. The finding of completeness conveyed in this letter represents the EPA’s determination that the deficiencies that formed the basis for the finding of failure to submit with respect to the RACT program elements (non-control techniques guidelines (CTG) volatile organic compound (VOC) RACT for major sources, oxides of nitrogen RACT for major sources, and CTG VOC RACT for all 44 CTGs) have been corrected, and as a result, the related application of the sanction clock is permanently stopped. See 40 CFR 52.31(d)(5).

If you have any questions regarding our completeness review, please call me or have your staff call Arnold Lazarus at (415) 972-3024.

Sincerely,

Elizabeth J. Adams  
Acting Director, Air Division
